WaStop® Inline Check Valve Technical Specification
Stainless Steel AISI 304/316

Model no.: N/A  WS230-S3-304/316  N/A
Nominal Size: 10
Pipe: Stainless Steel AISI 304/316
Membrane: EPDM
Fasteners: Marine grade stainless steel (AISI 316)

* +/- 15%  **) Modeled value
· Values measured from bottom of pipe.
· Tests performed at room temperature (61-68°F).

- Higher flows requires custom valve, contact Wapro
- Flange installation is highly recommended at flows above 6.5 f/s

In the submerged case opening pressure [mmH₂O /inH₂O] is the difference between the water level upstream and the water level downstream and in the open-air case to the invert of the pipe. In vertical applications, the vertical opening pressure is measured from the outlet of the WaStop.
